

Garden of Hope

Words & Music by Rustam Effendy; Arranged by Fadhil Indra & Alvin Anggakusuma

It's not all about giving up
It's not all about surrender
It's not all about losing hope
It's not all about feeling hunger

Do not listen to a bunch of those politicians
Who promise everything but give you nothing
Just don't care any dirty game they play
Let us be united just to get away

Chorus:

We are living together in a garden of hope hand in hand
The sun is shining and giving us life
Stand up, no surrender, never give up, get it up
Because we are living in a land of love

No regret... No... No sadness
Looking up the sky and bright sunny day
Garden of hope is living for us
Let's kick the worries and fight for the best... and get it up

Chorus:

We are living together in a garden of hope hand in hand
The sun is shining and giving us life
Stand up, no surrender, never give up, get it up
Because we are living in a land of love

Bridge:

Let us be united and we fight to survive... ahaaaa...

Chorus:

We are living together in a garden of hope hand in hand
The sun is shining and giving us life
Stand up, no surrender, never give up and get it up
Because we are living in a land of love

We are living together in a garden of hope
The sun is shining and giving us life
Because we're living in a land of love
Stand up, no surrender, never give up, let us get it up
Because we are living in a garden of hope
