

In Touch With You

Words & Music by Fadhil Indra; Arranged by Fadhil Indra

I will keep in touch with you
It doesn't matter how I'll find my own way
For I cannot do all the good things
To fulfill my life

I can see the sins in truth
They have come into me and made the dark side histories in my life
I can't feel a relief

I will need the signs from you
In terms of forgiving of all forgotten
You know I will see it, all is true

Give me your light, I need to get through
So I can fly and leave all the sins behind
I'm leaving all the sins and sinners
And feel the breeze of victory

I may not belong in heaven
But I'll be damned afraid of hell
And I believe in touch with you is all I have to do

Everything has come from you, no matter
You can give away and take away
They are all in your hands
And you are the only king of my soul
