

## PRESS RELEASE FOR "NANGGROE"

Montecristo was formed in Jakarta in 2008 and has released their first album "Celebration of Birth" in 2010. The songs off the debut album are about politics, economy, and society. As a cultural movement, Montecristo strives for the album "Celebration Of Birth" to be accessible to anyone in Indonesia and overseas. For that reason, the first album is now available in the Library of Congress in Washington, D.C., and at Cornell University's library in Ithaca, New York. The album is also accessible from several university libraries in Australia that have Indonesian studies program as well as dozens of libraries and private universities throughout Indonesia.

Currently, Montecristo is recording their second album scheduled to be released in 2013 and the single "Nanggroe" was penned to commemorate the tsunami disaster that devastated the city of Banda Aceh around 8 years ago. The song "Nanggroe" is a testament to the consistency of the band to continue to spread the message and a positive spirit through the lyrics.

The band feels that the local media has been paying a lot of attention on the anniversaries of significant events in the life of Indonesian society. So, through this song, Montecristo intends to our friends at television stations throughout Indonesia to play the video clip "Nanggroe". Thank you.

Best regards,

**Montecristo Band**
